

## Curriculum Vitae

### Evans Tarise

✉ etarise@gmail.com | 🌐 [Portfolio](#) | 📍 Aldershot, UK

---

### Summary

Innovative and deadline-driven Software Developer with 5+ years of experience in designing, developing, and deploying high-performance software solutions. Skilled in full-stack development, database management, and scalable system architecture. Passionate about optimizing user-centered applications through seamless UI/UX integration and backend efficiency.

---

### Education

#### Full Stack Engineer

*Codecademy – IT Switch Career (2023 – 2025)*

- Mastered front-end and back-end technologies, including React and Node.js.
- Designed and deployed scalable web applications, focusing on performance and UX optimization.

#### Master of Science in Information Systems

*Midlands State University, Zimbabwe (2013 – 2015)*

- Specialized in enterprise solutions, data analytics, cybersecurity, and IT strategy.
- Conducted research on emerging technologies, contributing to innovative business solutions.

#### Bachelor of Science (Hons) in Information Systems

*Midlands State University, Zimbabwe (2004 – 2008)*

- Developed strong expertise in system analysis, database design, and IT project management.
- 

### Technical Skills & Expertise

- **Programming Languages:** JavaScript (ES6+), TypeScript, Python, C#, SQL
- **Frontend:** React.js, Next.js, Vue.js, HTML5, CSS3, Bootstrap, Tailwind CSS
- **Backend:** Node.js, Express.js, ASP.NET, MVC.NET
- **Database & Cloud:** MongoDB, PostgreSQL, MySQL, Oracle DB, Firebase

- **DevOps & Tools:** Git, Docker, CI/CD Pipelines, AWS, Netlify
  - **Other:** Agile Methodologies, RESTful API Design, Cybersecurity, UI/UX Optimization
- 

## Professional Experience

### Full Stack Engineer - Trainee

*Codecademy – IT Switch Career, UK (2023 – Present)*

- Developing foundational skills in full-stack development, collaborating with senior engineers.
- Implementing responsive UI designs using modern frameworks.
- Gaining hands-on experience in database management, debugging, and system optimization.
- Participating in code reviews, agile development workflows, and continuous integration strategies.

### Analyst Developer

*Zimbabwe School Examinations Council, Harare, ZW (2018 – 2022)*

- Developed and maintained Oracle-based systems, optimizing data structures for efficient examination processing.
- Built MVC.NET and C# applications for seamless functionality in registration, result processing, and reporting.
- Partnered with stakeholders to transform business requirements into scalable software solutions.
- Led multiple development initiatives, applying Agile methodologies for timely project delivery.

### Junior Software Developer

*Zimbabwe School Examinations Council, Harare, ZW (2011 – 2017)*

- Developed secure examination council software using Oracle databases, MVC.NET, and C#.
  - Optimized database schemas, queries, and stored procedures for better performance.
  - Managed up to five development projects simultaneously, maintaining high coding standards.
  - Conducted extensive testing and debugging, ensuring high-quality software delivery.
-

## Projects & Contributions

### Project - Company Directory

*Tech Stack: HTML5, PHP, MySQL, Bootstrap, jQuery*

*A full-stack CRUD directory for managing employees, departments, and locations using Bootstrap modals and AJAX for dynamic user interactions.*

 [Live Demo](#)

### Project - Gazetteer

*Tech Stack: HTML5, CSS3, JavaScript, Bootstrap, Node.js, PostgreSQL, PostGIS*

*A geospatial data integration system providing interactive mapping and real-time analytics.*

 [Live Demo](#)

### Project - Movie-Mate

*Tech Stack: React.js, Node.js, MongoDB, JWT Authentication*

*A movie ticket booking system with personalized recommendations and social discussion features.*
